

SURPLUS EQUIPMENT

The Carroll County Bureau of Purchasing maintains a surplus furniture and equipment warehouse. All furniture, fixtures and equipment no longer required for use by County agencies are turned over to the Bureau of Purchasing to be warehoused. As needed, items are reissued to other County agencies, creating cost avoidance.

From time to time, the Bureau of Purchasing may determine that an item is no longer needed for government use. If the items have monetary value, they will be listed on-line (internet) with Public Surplus to be sold on the County's behalf. The revenue is then returned to the County's general fund. Surplus cars, trucks, and maintenance equipment are also listed on Public Surplus's web site. Each item remains on the site for twenty (20) days.

Carroll County Government auctions can be viewed by going to Public Surplus's web site at www.publicsurplus.com
