

STOP THE BLEED® Educational License - We're Approved!

The Department of Defense's (DoD) STOP THE BLEED® (STB) Program is designed to train and equip the public to be able to treat traumatic injuries involving severe bleeding until the first responders arrive.

We're excited to announce that Carroll County Department of Fire & EMS was recently issued a STOP THE BLEED® Educational License. We look forward to teaching our community how to STOP THE BLEED®.

It is estimated that more than 30,000 lives could be saved each year if more people had this basic, straightforward, but vital STOP THE BLEED® training. Key to the program's success are organizations licensed to teach DoD approved STOP THE BLEED® courses.

We are also announcing that we are now part of the Stop the Bleed Coalition. The Coalition is an IRS approved, tax exempt, 501(c)3 charitable organization. It was formed with a mandate to support the STOP THE BLEED® campaign and is the only nonprofit organization with that singular purpose.

The mission of the Stop the Bleed Coalition is to support the STOP THE BLEED® campaign by providing resources that enable collaboration and cooperation between the many people and organizations working to train and equip the nation to reduce the loss of life due to traumatic bleeding.

The Coalition is licensed by the US Department of Defense to support the STOP THE BLEED® campaign. The Coalition offers a wide variety of DoD approved services and products to the growing STOP THE BLEED® community and to the general public.
